MOD "A"

PACKAGED DISASTER

HOSPITAL

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
Public Health Service
Division of Health Mobilization
July 1967

PUBLICATION NOTE

This listing represents the 1st increment of the 10,000 Series "Mod A" Packaged Disaster Hospital. Supplemental pages will be published as additional material is made available.

PRICE

The price per unit of issue, as stated in this publication, is a fixed average unit price computed on the basis of total quantity of an item procured for the medical stockpile. It does not reflect the current replacement cost of an item.

MASTER PACKING LIST

A Master Packing List (Component Listing and Storage Data) for the hospital is attached to Case No. 633 (Water Tank), Case No. 690 (Mixed Case - Tools) and inside Case No. 1 (Mixed Case - Drugs).

KEY TO STORAGE CODE COLUMN

Symbols shown below express the following:

- A No specialized storage requirements with respect to temperature; however, a dry, covered storage area is required.
- B Normal warehouse temperatures required not below 50°F nor above 86°F (for all localities).
- C Refrigeration temperatures required (35° to 50°F).
- I Flammable. Should be kept in separate area where it will not create fire hazard for other stocks.
- N Do not freeze; subject to damage by freezing (temperatures below 32° F).
- Po Items with potency period governed by expiration date.
- Sn Sensitive item; subject to deterioration, care should be observed.
